REPORT OF INDEPENDENT ACCOUNTANTS

Stockholders and Board of Directors
Thorpe Capital, Inc.

We have audited the accompanying statements of financial condition of Thorpe Capital, Inc. as of March 31, 2002 and 2001, and the related statements of operations, stockholders' equity, and cash flows for the year ended March 31, 2002 and for the period from February 15, 2001 (date of inception) through March 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Thorpe Capital, Inc. as of March 31, 2002 and 2001, and the results of its operations and cash flows for the year ended March 31, 2002 and for the period from February 15, 2001 (date of inception) through March 31, 2001 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the computation and reconciliation of net capital is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

THORPE CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2002 AND 2001

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization—Thorpe Capital, Inc. is a Utah corporation organized and registered to engage in the securities business as a broker/dealer. The Company's principal market is Utah.

Estimates—The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents—For the purpose of cash flows, all highly liquid debt instruments purchased with an original maturity of three months or less are considered cash equivalents.

Income Taxes — Income taxes are provided using the liability method of accounting in accordance with SFAS 109, *Accounting for Income Taxes*. A deferred tax asset or liability is recorded for temporary differences between financial and tax reporting bases. A valuation allowance is recorded when it is unlikely that the net deferred tax assets will be realized through future operations.

NOTE 2--INCOME TAX

For federal income tax purposes, the Company has \$8,069 of net operating loss carry forwards as of March 31, 2002. These net operating loss carry forwards expire between the years 2017 and 2021.

Deferred tax assets as of March 31 consisted of the following:

	<u>2002</u>	<u>2001</u>
Federal	\$ 1,150	\$ 555
State	<u>403</u>	<u>195</u>
Total	1,553	750
Valuation Allowance	<u>(1,553)</u>	<u>(750)</u>
Total	<u>\$ —</u>	<u>\$ —</u>

The deferred tax asset is the result of net operating loss carryforwards. A valuation allowance was assessed due to the uncertainty that the deferred tax asset will be realized in future periods. During the year ended March 31, 2002 the valuation allowance increased \$803.

NOTE 3--NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1).

At March 31, 2002, the Company had net capital of \$8,931 which was \$3,931 in excess of its required net capital of \$5,000. The Company's ratio of aggregate indebtedness to net capital was 0 to 1.

NOTE 4 -- RELATED PARTY TRANSACTIONS

The Company is 100% wholly owned by Thorpe Advisory Service. During the year ended March 31, 2002 and the period from February 15, 2001 (Date of Inception) through March 31, 2001, Thorpe Advisory Service contributed \$7,092 and \$9,908, respectively, to the Company. The Company has accounted for these contributions as contributed capital.

**ACCOUNTANTS' SUPPLEMENTAL REPORT
ON INTERNAL ACCOUNTING CONTROL REQUIRED
BY SEC RULE 17a-5**

Board of Directors
Thorpe Capital, Inc.

In planning and performing our audit of the financial statements of Thorpe Capital, Inc. for the year ended March 31, 2002, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

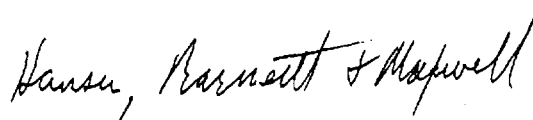

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at March 31, 2002, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.

A handwritten signature in cursive script, reading "Hansen, Barnett & Maxwell".
